A model can come in many shapes, sizes, and styles. It is important to emphasize that a model is not the real world but merely a human construct to help us better understand real world systems. In general all models have an information input, an information processor, and an output of expected results.

What is a Model?

A world view is a mental model of reality — a comprehensive framework of ideas & attitudes about the world, ourselves, and life, a system of beliefs, a system of personally customized theories about the world and how it works — with answers for a wide range of questions:
