45 Examples of Websites Designed with HTML5. Inspiration Andrian Valeanu • August 16, 2011 • 5 minutes READ . HTML5 language has replaced the HTML4 that had been used to modify the website design over the past years. The failing of the HTML4 was it didn't have the features of multimedia integration and the animations.

45 Examples of Websites Designed with HTML5 - Designmodo

Website Templates. A website template is a pre-designed web page or a set of pages that can be used for building a fully-fledged website. These kinds of themes are usually created using HTML or CSS technologies so that everyone can establish the site without hiring the specialist.
