First published by Simon & Schuster in 1993 and then by Continuum in 1998, Jim Mason's An Unnatural Order has become a classic. Now in a new Lantern edition, the book explores, from an anthropological, sociocultural, and holistic perspective, how and why we have cut ourselves off from other animals and the natural world, and the toll this has taken on our consciousness, our ability to steward nature wisely, and the will to control our own tendencies.

But "Unnatural" is disorganized, repetitive, unfocused, and, in some places, ridiculous. Mason tries to achieve an academic tone without going to the trouble of doing it. It is hard for me to dislike a book that posits the important and well-supported idea that the oppression of animals is the root of all oppression.

## **An Unnatural Order: The Roots of Our Destruction of Nature ...**

In 1993, Jim Mason's *An Unnatural Order* appeared. While not totally ignored, there may never be a "modern dominionism" movement. If the message in his book is even remotely accurate, our culture cannot wait 80 years for some as-yet-unborn author to rediscover *An Unnatural Order's* message.

## **Amazon.com: Customer reviews: An Unnatural Order ...**

*An Unnatural Order* is a provocative search for the basic beliefs of Western culture that feed racism, sexism, animal exploitation, and domination of the natural world. Nature writer Jim Mason begins this search nearly 10,000 years ago when plants and animals were first domesticated — or brought under human control.
