It's easy to search Wikibooks by topic, and there are separate sections for recipes and childrens' textbooks. You can download any page as a PDF using a link provided in the left-hand menu, but unfortunately there's no support for other formats. There's also Collection Creator - a handy tool that lets you collate several pages, organize them, and export them together (again, in PDF format). It's a nice feature that enables you to customize your reading material, but it's a bit of a hassle, and is really designed for readers who want printouts. The easiest way to read Wikibooks is simply to open them in your web browser.

Cluster Project Of Accounting Term

Project Accounting. Project accounting is the practice of quantifying the performance of project-based activity. For projects relying primarily on human capital, this typically involves tracking time, expenses, budgets, bill rates, and other financial metrics that reveal the performance of a project.

Project Accounting and Management Glossary

A business cluster is a geographic concentration of interconnected businesses, suppliers, and associated institutions in a particular field. Clusters are considered to increase the productivity with which companies can compete, nationally and globally. Accounting is a part of the business cluster. In urban studies, the term agglomeration is used. ...

Business cluster - Wikipedia

Project accounting is a specialised form of accounting that corresponds to the ever-evolving needs of project delivery, which helps adequately track, report and analyse financial results and implications. This includes the practice of creating financial reports specifically designed to track the financial progress of projects, which can then be used by managers to aid project management.

Cluster of Programs A grouping of closely related programs that share common compliance requirements. The types of cluster of programs are research and development (R&D), student financial aid (SFA) and other clusters. Consistent Treatment of Costs

Glossary of Terms : Florida Atlantic University

Because multiple assets can be created for a cluster we highly recommend that a project number be set up for each cluster. Project numbers are part of the accounting record and will allow you to run reports for a given cluster. Once the project number is set up it must then be entered in the accounting line on the requisition.
