Facilities/Planning, Design ... - Advocate Health Care

A clinic/health unit setting is intended to also serve as a healing environment. So there is also a trend to designing less clinical-looking spaces, and introducing more of a personal or homey feeling in individual patient rooms and admitting areas. Access to nature and the colors of nature also support healing.

Clinic / Health Unit | WBDG - Whole Building Design Guide

Unfortunately, design-related vulnerabilities that adversely impact patient safety are sometimes inadvertently built into the physical environment during the planning, design, and construction of health care facilities. These problems are difficult and expensive to address once a facility has been built and occupied.
