Instability Middle East Karel Cerny

Karel Cerny's work on the structural causes underlying the instability of Middle East as a region in the post Second World War era is one of those that are likely to have a longer shelf life than most. Cerny has worked out in meticulous detail virtually every angle that could be explored by any observer of the Middle East, be they structuralist or behaviouralist in their orientation.

Instability in the Middle East: Structural Causes and ...

Countering common interpretations of postcolonial Middle Eastern development, *Instability in the Middle East* focuses on the highly uneven and unsynchronized pace of change in individual sociodemographic, economic, and political dimensions of modernization. Drawing on the theory of multiple modernities, Černý investigates the broader cultural, religious, and international political context of uneven modernization in the Middle East and tests his model using a time series of dozens of ...

Instability in the Middle East: Structural Causes and ...

This book examines the roots of this instability using a theoretically original and empirically supported historical sociological comparative analysis. Up till now interpretations of the development of the post-colonial Middle East have been dominated by two opposing theses.
