Nurse's Pocket Guide

A nursing diagnosis is a clinical judgment concerning human response to health conditions/life processes, or a vulnerability for that response, by an individual, family, group, or community. A nursing diagnosis provides the basis for the selection of nursing interventions to achieve outcomes for which the nurse has accountability.

Amazon.com: nanda pocket guide

Nurse's Pocket Guide 13th Edition Ebook Content. Nursing is both a science and an art concerned with the physical, psychological, sociological, cultural, and spiritual concerns of the individual. The science of nursing is based on a broad theoretical framework; its art depends on the caring skills and abilities of the individual nurse. In its early developmental years, nursing did not seek or have the means to control its own practice.
