Although the code is slightly difficult to detect, some telltale signs will help you take the necessary action.

P0455 CODE: What does it mean and How to Fix it

Here is what P0455 means, in simple terms... P0455 is a fairly straight forward OBD-II trouble code, in that it tells us that the engine computer has detected a large leak in the engine Evaporative Emissions Control (EVAP) system. The EVAP system prevents fuel vapors from escaping into the atmosphere. The system allows for fuel vapors from the gas tank to be absorbed by charcoal pellets located in the charcoal canister (also known as EVAP Canister), and to be released to the engine air ...
