The University of Toronto's Division of
Clinical Pharmacology and Toxicology is
one of only a handful of such programs
in North America. Division members,
many of them cross-appointed with other
divisions, are actively engaged in
research, teaching and the provision of
clinical care, principally in the fields of
adverse drug reactions/drug safety and
acute-care toxicology.

Pharmacology and toxicology are very similar disciplines that require an understanding of basic properties and actions of chemicals. However, pharmacology places more emphasis on the therapeutic effects of chemicals (particularly drugs) while toxicology focusses more on the adverse effects of chemicals and risk assessment.
